Dispelling the Myths of Black Inferiority and White Superiority*

July 6-10, 2018

GUEST HOUSE
Retreat & Conference Center

318 West Main Street, Chester, CT

This BD101 workshop offers a space for individuals who identify as black and individuals who identify as white to name and transform internalized, interpersonal and structural patterns of white supremacy and racism.

Workshop Goals:

- To identify, understand, and replace patterns of racism and white supremacy within ourselves.
- To build skills in accessing the inner guidance and ancestral wisdom for living into wholeness.
- To develop skill in speaking from YOUR knowingness, speaking truth out loud.

* This is the third offering of BD101-Race! We are preparing for future offerings to include a wider range of people of color as both participants and as facilitators.

Spending significant amounts of time each day in racial affinity groups, this workshop will allow the time and space for individual work, the work we need to do within our racial groups, and the work we need to do together. Exploring history, sharing our stories, using movement, art, media and body work, we will access and seek to dislodge seeds of inferiority and superiority that live within us and work to establish new ways of being that are about greater wholeness, truth-telling, and healing. We do this to become more effective transformers who work to de-structure systemic and structural racism in this world.

The workshop will be limited to 30 participants - with an equal number of individuals working in each of the two racial Affinity for Healing groups.
